

OTHER WAYS TO HELP

Self-advocate Advisory Group

We need to include autistic adults in all OCASD subcommittees. We also want to offer spaces for autistic youth and adults who don't want to become subcommittee members or chairs but who are willing to tell us about their needs and give us feedback on the ideas and proposals identified by OCASD and its subcommittees. Over the next year we will be establishing an advisory group to meet periodically via Zoom, at times that are convenient for its members and with accommodations for those who need them. If you would consider becoming part of such a group, please contact us at staff@orcommissionasd.org

Focus Groups

From time to time it may be helpful for us to gather a focus group of stakeholders for information-gathering and dialogue about a given proposal or topic. If you would consider becoming part of such a group, please contact us at staff@orcommissionasd.org

Surveys

Our strategic plan calls for some of our subcommittees to survey stakeholder groups. If you would consider becoming responding to occasional surveys respondents, please contact us at staff@orcommissionasd.org
